Steel Repair In Progress

In 2013, an engineering report revealed that the steel lintels of the building are badly corroded. Masonry probes completed in the fall of 2014 identified areas in need of repair. The structural steel is now being repaired or replaced. This project is expected to continue through the end of September and possibly October. We apologize for any convenience this may cause you when parking or entering the building. ■

Library Cards Are Important!

September is National
Library Card Sign-up Month

Stop by the front desk with your current ID to sign up for or replace a library card. Apply for your child's library card as soon as he or she is born. It's important for each child to have a card to be registered for programs, take out books and materials, and eventually bring to the library when their class visits. Have your child bring the card to the children's desk during September and receive a library card holder lanyard to keep it safe and special. (While supplies last). ■
